

Dear Sir,

Please find attached the group snap for the award that we received for a cross-centre competition held for representing the evolution of our respective COEs. I was a significant contributor in the task.

We won it.

Also amongst 40 odd new joiners in my batch (having recruits from top institutions like JNU, Delhi School of Eco, ISI, NMIMS, Welingkar, NIT, MSc-Stats from JU... etc) I was chosen as the 2nd Runner-Up from the 5 weeks long boot-camp.

The boot camp (literally in the true essence of the name) consisted of 5 weeks of rigorous training from 8:30 am to 7:30 pm, Monday to Friday.

It covered topics like SAS, Advanced Excel, VBA, Basic Statistics, Access, Basics of Statistical Modeling, Retail Consumer Finance, Credit Card Industry dynamics, Data Warehousing etc.

Each module was encapsulated by a pre- and post-evaluation. In total we took 23 exams during this period. It really feels great to have come out through such rigor with flying colors.

It must have been your blessings that provided me the strength to lock horns with such quality recruits from all over India and overcome the challenge.

Looking forward to your support, encouragement and blessings so that I can held the flag of GBS high above the others.

Regards,
