

## Alumni Speak

### Partha Rahaman

I liked the unique selection procedure. I decided to join GBS. It's entirely an attitude building process. After completing 2 years I got myself as a person who can dare to face any challenge. I feel different than my colleagues in terms of understanding Business process of my client.

### Preksha Chhajer

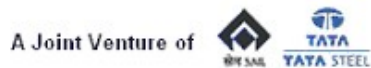

GBS gave me the opportunity to do a lot of extra curricular activities which enhanced my leadership and team skills. GBS gave me a platform to get the right exposure at the beginning of my career. I am extremely excited about the work I do. My job helps me get in-depth understanding of brands and create value for millions of consumers.

### Subhojit Sengupta

GBS inculcates & imbibes some of the entrepreneurial qualities, which is the corner-stone of the course curriculum. The 2 years at GBS was an enriching & rewarding experience. It increased my confidence level to face the corporate world head-on.

## Chandrasish Banerjee

It was quite an extensive decision making process that I had followed. Consultation with past and current students, placement records, existing pedagogy, pocket pinch and even the campus location were some of the parameters that I had considered before making GBS "my spontaneous B School of choice". The most valuable learning experience in my life till date. It is a true Finishing School. It gives me immense pleasure when I successfully implement my learning from GBS to my work.

## Pragya Binaykia

Apart from studies, hands on experience with Rotaract, Serendipity, etc. helped me learn a lot. The initial break was good. 6 months into the work-life, smooth sailing so far. I like my job a lot.

## Reema Bhattacharya

Initially it was because of the proximity to my residence that I had selected Globsyn, but it turned out to be one of my best decisions. What is best about Globsyn is that the curriculum undergoes revision every year to suit the requirements of the corporate world, not to mention the increasing corporate expectation and the average pay packet that is offered to a Globsyn student. Globsyn offered me the most fun-filled and effective learning experience of my life.

## Samvidha Singh

Considering the infrastructure and faculty GlobSyn was the best option available to me in Kolkata. It has the most conducive atmosphere to mould the students for the corporate life. GlobSyn has taught me to remain focused and helped me inculcate an objective outlook in all walks of life. I am presently in PWC and I love my work.

## Shraddha Agarwal

I have selected GBS because it is the only option in Kolkata with excellent teacher student ratio and superb academic infrastructure. Program fee is also justified because students are getting decent offers during placement at GBS. Perhaps nowhere in the world one will get teachers who are very concerned about the academic growth of individual candidates. It's a place where you turn your weak points into strong points. GBS also helped me to honing my soft skills, gave me confidence & above all made me believe that "ordinary people can do extra ordinary things".

## Dipyoman Banerjee

I joined GBS in its growth phase. But I was familiar with the name of Bikram Dasgupta and his entrepreneurial abilities have always inspired me. The faculty list was also impressive and so was the campus and infrastructure. I probably spent the best days of my life at GBS. My life at GBS not only gave me a simulation of the actual corporate world but it also gave me valuable insights as how to stand your own. I am an Assistant Manager at Bajaj Allianz Life Insurance Co Ltd, based at their Head Office in Pune. I have reached this milestone in a year and a half. I think its just a start. I am immensely happy here and having a great time.
